### \$10,000 Insurance Is Given Accounts

### Savings and Loan Groups in Kingston Supply New Coverage

Federal Insurance coverage on savings accounts up to \$10,000 is now provided by both Savings and Loan Associations in this city.

This was disclosed today by the executive officers: Dewey W. DeWitt, executive secretary and treasurer of the Home-Seekers' Savings and Loan Association of Kingston, and E. Frank Flanagan, president of the Savings and Loan Association of Kingston.

Word was received today by the local savings and loan associations today that President Harry S. Truman signed the measure Thursday night. It was passed and sent to the White House Thursday afternoon.

These institutions have their accounts insured by the Federal Savings and Loan Insurance Corporation. The previous maximum coverage had been on accounts of \$5,000 or less. The higher coverage is effective Oct. 1.

### Mayor Calls City Meeting to Form Crusade Committee

Various interested organizations of the city will meet with Mayor Oscar V. Newkirk in the mayor's office at 7:30 p. m. today to form a local committee for the Crusade for Freedom.

Each community of the nation is to have its own special part in the movement which grew from local levels "to aid in halting communist aggression through unity of the American people."

It was announced from Syracuse, meanwhile, that Howard F. Zinsmeister, treasurer of the Syracuse Trust Company, was named treasurer of the New York state region of the crusade.

The crusade is urging small donations from Americans for the expansion of Radio Free Europe, and the signatures of millions of Americans will be on a Freedom Scroll.

A symbol or rallying sign will be established for those of from certain countries, who may resist the continuation of communism.

The new treasurer will be responsible for the financial affairs of more than 100 separate crusade programs being set up in communities throughout the state. Headquarters is a 401 S. A. & K. Building, Syracuse.

### Both Insist Island Is Chinese Region, Thus Out of U.N. Authority

New York, Sept. 22 (AP)—Nationalist China and Soviet Russia, usually the bitterest of enemies in the United Nations, are expected to join today to oppose an American attempt to hand over the Formosa problem to the General Assembly.

Both China and Russia insist that the Pacific Island is Chinese territory and therefore the U.N. has no right to interfere in its problems. Moreover both countries have their own Chinese items they want put on the agenda.

Chiang Kai-shek's representatives oppose U.N. discussion because the island is the last stronghold of the Nationalist government and they want to maintain legal title to it.

The Russians insist Formosa is Chinese territory because they want the Communist government to Peiping, which they claim is the only legal government of China, to take it over without international opposition.

After the invasion of South Korea, on June 25, President Truman ordered the U. S. Seventh Fleet to patrol the Formosa Strait to stop the Chinese Reds from attacking the island or the Chinese Nationalists from raiding the mainland. He said he acted to prevent the spread of the Korean War.

**'Act of Aggression'**

Russia charged in the Security Council that Truman's action was an act of aggression against China, and Soviet Foreign Minister Andrei Y. Vishinsky has asked that the Assembly consider similar accusations.

Britain's Sir Gladwyn Jebb said at yesterday's meeting of the Steering Committee that the Russian claim was "sheer propaganda" and he could not understand it.

A British spokesman said last night Jebb had not changed his opinion, but would make no serious attempt to keep either the American item—called "The Question of Formosa," or the Russian item—called "Complaint of American Aggression on China," off the agenda.

A Russian spokesman said the Soviet complaint also includes Chinese Communist charges of American aggression by bombings of Chinese territory in Manchuria.

**Assembly Agrees**

The Steering Committee agreed yesterday to have the assembly hear Chinese Nationalist claims that Soviet power put the Communists in control of the Chinese mainland.

## Secretaries Under Marshall May Find Greater Stature

Washington, Sept. 22 (AP)—The secretaries of the army, navy and air force may find they have greater stature and more responsibility under the administration of Secretary of Defense George C. Marshall.

While no one expects any deviation by Marshall from the spirit or letter of the law which unified the armed services, those who have worked with him before make these points:

1. Marshall is an experienced administrator, former military chief of a huge wartime army and former head of the State Department. He prefers to delegate responsibility and authority.

2. As secretary of state, he had key assistant secretaries who handled matters in their own provinces and brought only the larger, policy matters to him for decision.

3. If he follows that pattern as chief of the Defense Department, greatest single agency of government, it would mean more decentralization, greater freedom of activity than the service secretaries had under former Secretaries of Defense Louis Johnson.

So firm was Johnson's control of affairs in the army, navy and air force that one man, John L. Sullivan, resigned as navy secretary in protest. Former Air Force Secretary W. Stuart Symington had some behind-the-scenes jousts.

## Allied Commission Orders Liquidation Of Big Steel Trusts

### Six German Companies Must Cease Operating October 1; Plants to Continue

Frankfurt, Germany, Sept. 22 (AP)—The Allied High Commission decreed today the liquidation of Germany's largest steel trusts.

Six huge companies were ordered placed in liquidation at the close of business September 30.

An allied statement issued later said liquidation "does not mean that the operation of the factories and business will be interrupted or discontinued."

Their operation "will continue as usual in coordination with the approval of reorganization plans," the statement said.

"It was always the allied intention that the work of reorganization should march hand in hand with the deconcentration of old concerns. Now that the plans for reorganization of the coal and steel industry are taking shape, it is time to make a start with the corresponding liquidation."

The action came on the heels of a similar order this month to break up I. G. Farben, Germany's chemical empire.

The allied decree, signed September 14 and made effective on publication today, did not disclose the size or number of smaller companies which will be left from the liquidation of the big six steel trusts.

**Will Be in Charge**

But the allied commission's special agency for governing the steel industry—"the combined steel group" at Dusseldorf—will be in charge of the process.

The historic armament firm, Friedrich Krupp, and Vereinigte Stahlwerke (United Steel Works) head the list. Others are Mannesmann, Roehrer-Werke, Klockner-Werke, Hoesch, and Gutehoff.

# Allies Battle 10,000 Reds Near Seoul; Fight Is Bitter

## Pair Leaves As Dewey Blasts Reds

Vishinsky and Malik Go Out of Hotel Dinner as Governor Assails Slave Labor

Applause Is Given Audience of 1,500 Is Responsive as He Concludes Charge

New York, Sept. 22 (AP)—Andre Y. Vishinsky and Jacob Malik walked out of a United Nations dinner last night when Gov. Thomas E. Dewey said in a speech that the Soviet Union holds millions of slave laborers "under conditions which amount to torture unto death."

As the heads of the Russian U. N. delegation strode off the dais, Dewey remarked: "I must say I am complimented by the withdrawal of those who plot the destruction of the world."

There were cheers in the audience. Vishinsky and Malik maintained a stony silence as they left the Waldorf-Astoria dinner given for U. N. Assembly delegates by the City of New York.

**Dewey's Statement**

In the third paragraph of his written speech, Dewey read: "There was a fact that while the Soviet Union has 10,000,000 to 15,000,000 people living in slave labor under conditions which amount to torture unto death, no person anywhere in the world can sleep nights with any sense of security."

There was a murmur in the audience of 1,500 as Dewey began the sentence, and widespread applause as he finished it.

The Soviet exit began as Dewey reached the mention of slave labor. Vishinsky and Malik were off the dais by the time Dewey finished the sentence.

**Copies Distributed**

Possibly Dewey's speech was known to the Russians in advance. Copies had been distributed to newsmen and some were on the reporters' tables at the dinner.

The audience was hushed as Dewey completed his address. Saying he spoke as titular head of the Republican Party, Dewey pledged G.O.P. support for Secretary of State Acheson's U.N. proposals for dealing with future aggression.

A similar pledge of support for Acheson's U.N. proposals was given by another Republican speaker, Senator Henry C. Lodge, Jr. of Massachusetts.

Guests of honor at the dinner were Gen. Carlos P. Romulo of the Philippines, past president of the U. N. General Assembly, and

## Trades Council Will Discuss Pledge on Benedictine Project

As a new Red tank column was reported approaching from the north (A), U. S. Marines smashed the heart of Seoul. Marines, Sept. 21, entered the city from the northwest and more were poised in the city's suburbs west of the Han River (B). Reds also were rushing re-inforcements from south (black arrows). In old U.N. beachhead a force of 5,000 Red Koreans was trapped near Tabu (D) and many were reported surrendering. South Korean troops were in Samchok behind enemy lines (C), on coastal road from Pohang. Steady gains were made in other sectors of the southeast.

## Kelly Jury Completed With Naming of Two Alternates

### Big Three Talk Of Defense Force

### Prime Questions Relate to Formation, Use of German Units

New York, Sept. 22 (AP)—The Big Three foreign and defense ministers convened today to discuss formation of an integrated North Atlantic defense force against possible Russian aggression.

A State Department source said prime questions before the officials were, first, whether such a force should be created, and, secondly, whether to include German units in it.

The position taken by the commission was discussed today.

### First Degree Murder Trial Is to Begin Monday at 10 A.M. in County Court

Completion of the jury to hear the first degree murder trial of Edward H. Kelly was reached in county court this morning when two alternates were accepted.

The two alternates who comprise the 14-man jury are Mrs. Helen E. Crantek of Esopus avenue and Mrs. Gertrude Gerds of Sawkill. Both are housewives.

Six prospective jurors were questioned this morning.

Court recessed shortly after noon today until Monday at 10 a. m. when the trial will open.

### Some Work Goes On at School and State Teachers' College Building

A pledge against work stoppages on the Benedictine Hospital project by the Ulster County Building Trades Council will be discussed at a meeting of the council next Tuesday. It was learned today.

Meanwhile, work on the hospital project was reported at a standstill today, but workmen in some trades were continuing at the Washington School and State Teachers College projects, despite the labor union strike.

Arrangements were reported still in progress today by Lipsett Inc., contractor on the Broadway crossing project, to move machinery from the project area for the fall and winter months. A spokesman for the contractor said yesterday that they planned to move out because of failure to settle the dispute between laborers and several area contractors.

**Says Pledge Made**

Asked if it were true that the Ulster County Building Trades Council had pledged "no stoppages" on the Benedictine Hospital, George E. Yerry, Jr., president of the Hudson Valley District Council of Carpenters, said such a pledge had been made.

It was further stated that the council had agreed that if disputes occurred on the hospital project, they would be made to iron out differences without stopping work.

Laborers on the hospital project remained on their jobs for some time after Local 17, International Hod Carriers Building and Construction Workers Union, quit other jobs, but they finally went out late last week.

**Men Go Back to Work**

Men returned to work on the New Paltz Savings bank project yesterday following an agreement to pay the \$1.75 an hour asked by the union. The Napanoch prison job was reported operating "short-handed" because of the strike and the Balitz Pajama Factory project here was reported at a standstill.

## Pickets Continue At Electrol Plant; Both Sides Silent

The striking machinists' union was still maintaining a picket line at the Electrol, Inc., plant on Grand street this morning.

As the strike entered its third day today, both management and union remained officially silent on the issues involved.

It was reported unofficially that the union turned down a management offer of a 10-cent-an-hour pay increase plus a \$25 bonus. The union was reported unofficially as holding out for a 15-cent increase. According to one report, the union's original demand was for 40 cents an hour.

The machinists are members of Ulster County Lodge 1562, International Association of Machinists. The lodge's president, Albert Rappleyea, claimed about 300 men are striking. Engineers and foremen are not involved in the strike.

Pickets have been walking outside the plant during all regular shifts. No disturbances of any kind have been reported to police and picket lines have remained orderly.

## UN Soldiers Cut Off Red Supporters

### U. S. Tanks Take Plane Field 20 Miles South of Capital, Others Enter Suwon

### Marines Use Fires Steel and 'Throwers' Used to Cut Way Into Yongdungpo

Tokyo, Sept. 22 (AP)—Allied marines with bayonets and flame-throwers battled 10,000 Korean Reds tonight on the near outskirts of Seoul.

Fleeing civilians said the Communists are hastily putting up stone barricades and digging trenches in the streets for their last-ditch defense of the Korean capital.

The Red defenders in the city are isolated by allied deployments from getting outside reinforcements and their positions are under constant allied air bombing.

While bitter hand-to-hand fighting raged on two sides of the ancient city, allied forces smashed out 20-mile advances from both the old and new beaches to cut off Red reinforcements for Seoul.

The airfield at Suwon, 20 miles south of the capital, fell to tanks and units of the U. S. Seventh Division rolling down from the Seoul front. Other elements entered Suwon city, outside the major rail line and high landing up from the rapidly expanding southeast beachhead.

**Allies Punch Ahead**

Allied forces were punching ahead on all sectors of the southeast beachhead. In some sectors the Reds were retreating northward, but in others they fought stubbornly. Hundreds surrendered or were taken prisoner.

A.P. Correspondent Don Whitehead, with American and South Korean marines outside Seoul, reported that by mid-afternoon Friday the marines had not entered Seoul proper but patrols were moving toward the city limits on the north.

"The sprawling city of more than 1,000,000 normal population may become one of the bloodiest battlegrounds of the Korean war," Whitehead reported. "The Reds are preparing for house-to-house fighting."

"This could mean the destruction of a large part of the capital," Whitehead said.

**Artillery Is Active**

Red artillery roared into action against the marines from public park positions on South Mountain inside Seoul. An estimated 3,000 Reds were reported to have bombarded the mountain on Seoul's south side with deep defense works. Whitehead said Red defense forces were estimated to total 10,000.

Bayonets and flame-throwers were used by marines to cut a mile-wide swath through Seoul's southwestern industrial suburb of Yongdungpo. It is across the Han river from the capital.

**'Heavy Casualties'**

A.P. Correspondent Tom Lambert reported from the Seoul front Friday morning that the marines suffered "relatively heavy" casualties in close-quarter combat through shell-sattered factory buildings.

Allied troops apparently were

## Congress Clears Way to Give Truman Tax Bill by Night

Washington, Sept. 22 (AP)—Congress cleared the way today to put on President Truman's desk by nightfall the quick tax increase he asked almost two months ago to help pay for American rearmament against Communist aggression.

Estimates are that it will produce about \$300,000,000 a year less than the \$5,000,000,000 Mr. Truman asked. But he was reported to be pleased with the measure; his signature was taken for granted.

Indications were that the House and then the Senate would give the bill overwhelming approval. It will bring the Korean war and the big rearmament program close to every American family.

The government now draws from now will begin taking about one-fifth more taxes—after allowing for exemptions—out of every worker's pay.

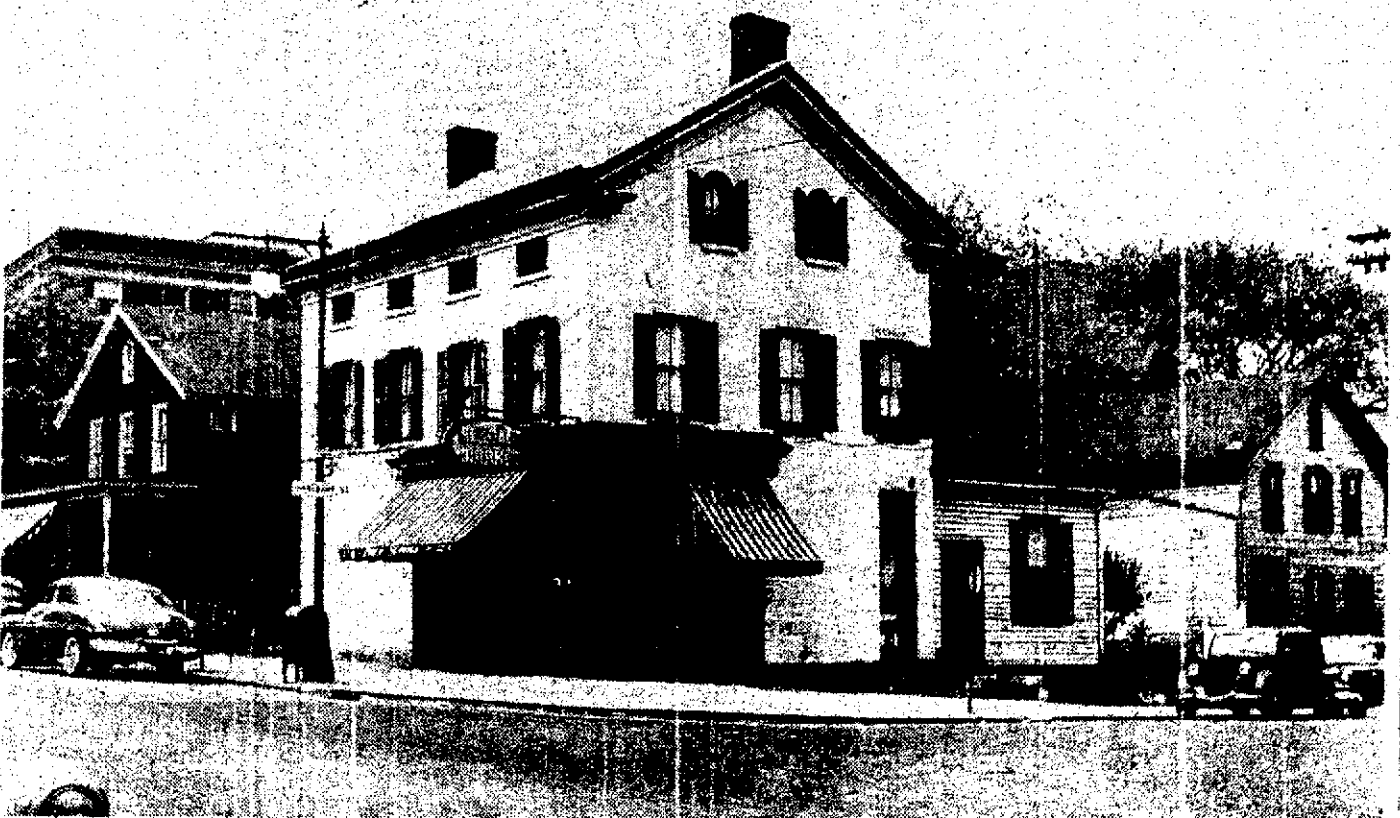

Moreover, this tax increase will be followed by another, probably when Congress returns after the November elections. The second bill is expected to levy an excess profits tax on corporations, possibly yielding around \$1,000,000,000 to \$6,000,000,000 a year.

This would put tax collections at a record high level.

The idea is to put the rearmament program—as nearly as possible—on a pay-as-you-go basis.

## Argument Is Adjourned

New York, Sept. 22 (AP)—Federal Judge Edward Weinfeld today adjourned until Sept. 26 argument of a defense motion for a bill of particulars in the indictment of Abraham Brothman and Miss Miriam Moskowitz. They are accused of conspiracy to obstruct justice in an investigation of Soviet espionage. Brothman, 36, is a resident of 41-08 42nd Street, Sunnyside, Queens. Miss Moskowitz, 34, lives at 151 Eighth avenue, Manhattan. Both defendants, who are at liberty in \$25,000 bail each, were in court today.

## Truman Is Petitioned

York Pa., Sept. 22 (AP)—An army lieutenant with a petition today has petitioned President Truman to set aside a court martial by death sentence imposed on his husband for disobeying battle orders in Korea. The nature of the orders was not disclosed. Mrs. Gilbert, mother of two and expecting a third child, turned her appeal over to Rep. James F. Lind (D-Pa.). The Gilberts are Negroes. Mrs. Gilbert returned from Japan after the start of the Korean war.

## Says No Registration

New York, Sept. 22 (AP)—Robert Thompson, state chairman of the Communist Party, said today that he was confident that New Rochelle Communists would not register with the city police under a city ordinance requiring them to do so. Thompson said in a telegram to Mayor Stanley W. Church that the ordinance was "illegal and unconstitutional" and that it had been "sneaked through" without a public hearing.

## Body Is Identified

Newport, R. I., Sept. 22 (AP)—A body found in Narragansett Bay two days ago was identified today by a naval board of inquiry as that of Comdr. John W. Magan, Jr., executive officer of the tanker Callosachatchee, who disappeared September 11. He lived at 1 Victoria avenue.

It later came toward Mrs. Platinia and Mrs. Vincent Platinia as they were sorting apples. Earlier it was chased by a dog between the houses of Mrs. John Thoben and Miss Eliza Raymond. Fortunately the dogs in the neighborhood had had inoculations in July.

## Police Are Puzzled

New York, Sept. 22 (AP)—Puzzled police arrested two men today for one false fire alarm. When the alarm rang, a bystander grabbed him and pointed to a man, Bacheo, 29, yelling: "I saw him pull the box." Despite his protests of innocence Blumel took Bacheo to the station house and then returned to his seat. A youth approached him and said: "You arrested the wrong guy. I pulled that alarm box by mistake." Blumel took Angel Mercado, 19, to the station house where he too was booked for the same offense. Specifically, the charge was violating the administrative code.

## Shaw's Condition Good

Luton, England, Sept. 22 (AP)—A hospital bulletin this morning said the condition of George Bernard Shaw, who is suffering from a thigh fracture and kidney ailment, is "satisfactory." Hospital officials said that even if all goes well, it will be at least two weeks before the famed 94-year-old Irish wit can hope to go home to his cottage in Ayot St. Lawrence.

## Financial and Commercial

New York, Sept. 22 (AP)—Hard-hitting demand for stocks swept the market to a 19-year peak today.

Key issues moved ahead for gains running to more than \$1 a share.

Railroad shares, which have been highballing ahead for weeks, powered the advance. Other groups, such as motors, steels, rubbers, chemicals and oils, were quick to swing in line.

The general price level, as measured by the Associated Press average of 60 stocks, broke through its 1946 high and reached a top since March 1931. In that year prices were still crashing down from the dizzy heights of 1929.

Trading was so fast for a brief spell in the morning that the ticker tape fell behind in reporting transactions from the floor of the exchange.

Nickel Plate Railway was a star performer with a jump of \$3.25 a share to \$53.25, on top of yesterday's gain of \$1 a share. The extreme rise was later shaved.

Also ahead were Pennsylvania R. R., Southern Railway, Chesapeake & Ohio, Bethlehem Steel, General Motors, Chrysler, Standard Oil (N. J.), Richfield Oil, Dow Chemical, American Cyanamid, Du Pont, U. S. Rubber, Kern County Land, American Telephone, Kennecott Copper, Schenley, and Montgomery Ward.

## Allies Battle . . .

sparing Seoul from artillery fire to avoid destroying the capital by fire that would spread through its flimsy structures.

Marines Corsair fighter-bombers closely supported the American and South Korean leathernocks on both sides of the city. Whitehead said the aerial fire-bomb assault on Red-held heights west of Seoul—Hill 105—was an awesome sight. Flame and smoke obscured the hill.

Civilians said the Sungmyon University campus and other high ground in the city was strongly fortified by the Reds.

Marines on the north (Seoul) side of the Han river already have cut the rail and highway route to the northwest. While one column swung south from the crossing, eight miles northwest of Seoul, another marine armored force took high ground north of the city.

Thus the allied artillery controls the approaches from Pyongyang, North Korean Red Capital, 120 miles northwest of Seoul, and coupled with the Seventh Division's entry into Suwon, this chokes off the Reds from supply or reinforcement from the north and south.

## To the Noose

General Douglas MacArthur's grand strategy is to tie a noose around the Red Seoul supply and distribution center and then crush the Korean Red Army in the south between the arms of a giant pincer.

Unless well-organized reinforcements can break through from the north, it looked as though the clamps would close.

There was no further word on a 10th Corps intelligence report Thursday that a mystery Red armored column from Manchuria was rolling southward.

The U. S. First Cavalry Division's 20-mile northward thrust was the biggest breakthrough.

The Eighth Army Friday called it the greatest single day's advance thus far in the eight-day Allied offensive.

The cavalry's tank-led motorized force drove from a point near Tabu, 13 miles north of Taegu, almost to the Nakdong river, seven miles southeast of Sangju. Sangju is a key rail and highway junction on the Seoul routes.

The task force covered six miles in six hours at the outset. It bypassed an estimated 5,000 Reds trapped Thursday in a triangle between the highway and the river.

## More Than 400 Surrender

More than 400 of the trapped force surrendered. Major Gen. Robert R. Gay, First Cavalry commander, personally brought in two prisoners, a division spokesman said. The Reds were getting hungrier. More were expected to quit.

General Gay was quoted as saying: "She's a rout now," he told AP Correspondent Jack MacBeth. "We've had a great day."

Capture of Sangju, 100 air miles southeast of Seoul, would deny the Reds one of the only two rail and highway routes northward to the capital. Communists falling back to Kumchong before the U. S. 24th Division advancing from Waegwan would have to retreat through Taejon and northward into the guns of the U. S. Seventh Division at Suwon.

The U. S. Air Force summary said retreating Reds around the beachhead perimeter were being

## China and Russia

attacked continuously by allied fighters and bombers.

While the First Cavalry forged ahead to the north, the South Korean First Division crossed the Nakdong river near Suwon, about 16 miles north of Waegwan.

Further south, British troops were on their first real assignment since the allied offensive began a week ago. The British relieved elements of the U. S. 24th Division near Songju and were in heavy battle on high ground seven miles west of the Nakdong.

The U. S. 25th Division was bearing down on Chingju, 25 miles west of Masan, Masan, 35 miles from the allied southeast port of Pusan, was the closest the Communists ever came to snuffing out the United Nations' lifeline.

The 25th gained up to five miles Friday and was within eight miles of Chingju. A thick minefield slowed the advance.

South Korean Republic troops hammered on the northern side of the Pusan perimeter. They seized Kigye, 10 miles northwest of Pohang, and advanced a mile and a half beyond the town.

The Korean Red radio conceded the Communists were fighting a defensive action on the Inchon-Seoul beachhead but said that elsewhere allied "counterattacks" were being repulsed.

## Russell Won't Talk

Washington, Sept. 22 (AP)—Harry Russell, reputed big-time gambler, declined again today to answer questions about bookie operations in Florida and Senator Kefauver (D-Tenn.) said he would recommend he be cited for contempt of Congress. Kefauver, chairman of the Senate Crime Investigating Committee, also disclosed his group is looking into large-scale gambling operations in northern New Jersey and is trying to call Joe Adonis, another reputed gambler, as a witness. This is all part of a widespread inquiry the committee has been making for weeks.

## Stocks Hit Peak

New York, Sept. 22 (AP)—An inflation-minded stock market soared to a 19-year peak today. Not since 1931, according to the Associated Press average of 60 stocks, has the general price level climbed so high. As measured by the AP average, the market broke through the 1946 high of \$32.40 a share and hit \$52.80 at noon. The 1931 peak was \$38.50.

Railroad issues, much in demand recently, powered today's rise. Other key groups, such as steels, motors, rubbers, chemicals, metals, and oils, joined the parade.

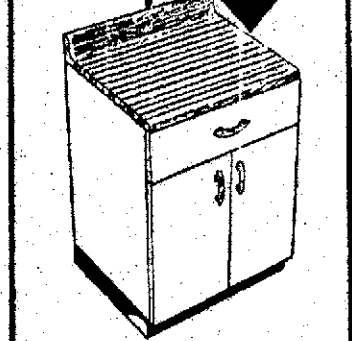

## Dividend Declared

The board of directors of the Central Hudson Gas and Electric Corporation, at its monthly meeting held at its South road office in Doughkeepsie, today declared a dividend of 15 cents per share on its common stock, payable November 1, 1950, to stockholders of record October 10, 1950.

### Hospital Trustee

W. G. WILLIAMS

Walter G. Williams of Rosendale was welcomed as a member of the board of trustees of The Kingston Hospital at the monthly board meeting Monday evening.

A resident of Rosendale for 20 years, Mr. Williams is the owner of the Williams Lake Hotel and active in town civic affairs. He is chairman of the Rosendale School District 3 board of trustees, of which he has been a member for six years. He has served as secretary of the Rosendale Township Association and is a member of the Kingston Kiwanis Club.

Mr. Williams received his elementary schooling in Teaneck, N. J., and was graduated, summa cum laude, from Rider College in Trenton with a degree of Bachelor of Accounts in Business Administration.

After completing his education, Mr. Williams came to Rosendale and in 1932 took over the management of the resort founded by his father, Gust Williams. The younger Mr. Williams is married and the father of four children.

Announcing Mr. Williams' election as a trustee of The Kingston Hospital, John D. Schoonmaker, Jr., president, said: "We feel that Mr. Williams' business experience as well as his keen interest in community welfare, will make him a valuable addition to the board." He pointed out that the election of Mr. Williams is in furtherance of the hospital's policy of having representation on the board from communities outside of Kingston which are served by the local hospital.

Other out-of-town members of the board serving with Mr. Williams are Frank B. Matthews of Richmond Park and Kenneth L. Wilson of Woodstock.

### 53 Crewmen Are Lost

Tokyo, Sept. 22 (AP)—All 53 crewmen of a Japanese vessel were believed lost today in rough seas off the northwest coast of Honshu. Kyodo news agency reported the 85-ton vessel radioed for help yesterday. Ships that answered the call found no trace of the distressed vessel which had been homeward bound with a load of bonita.

### BABSON on BUSINESS

New York City, Sept. 22—During the past few days I have again been in New York City where I contacted some very important people. Perhaps you would like a brief summary of what these real thinkers believe regarding the Korean situation and the world in general.

Even some leading Republicans feel that we have pursued a wise Chinese policy in accepting the theory that Communism would inevitably spread throughout China. When I visited China, I found terrible poverty and suffering amongst these hundreds of millions of people. I am not surprised that they blindly grasp at the promises of the Communists. The State Department, therefore, may have been prudent in not backing Chiang Kai-shek; it may be unjust for us to persecute Lattimore or any other honest man for taking a similar position.

Certainly, at all costs, we should hold Formosa but avoid war with China. These people have always been friendly to us. By a "hands off" attitude, we can again have their friendship after the present storm is over. People in close touch with the Far East, believe that Communism is less likely to spread throughout India, China, Burma and India if we stick to the State Department's much criticized position.

### What About Europe

My knowledge of Europe indicates that our policy there should be "to hope for the best but prepare for the worst." The people in Western Europe are unhappy and this includes the English people. They have been through two wars and feel that if World War III comes, their homes and farms will be the center of the conflict and they would suffer tremendously, who ever wins. Certainly, their only hope is for the formation of a United Western Europe and Great Britain with a combined Army, Navy and Air Force as urged by Winston Churchill. Governments will attempt this, but what the reaction of the masses will be at that time is uncertain. The Communists are making great promises while the Conservatives have little to promise excepting the status quo.

It is hoped by the common people of Western Europe and Great Britain that Russia will not risk a World War III, but if Russia does, that they can remain neutral. However, it is up to us now to help arm these people and aid them in every way. Otherwise, if we should get into war with Russia, our boys might be left to fight Russia pretty much alone. I have no fear of Russia licking us; but it is possible we cannot lick Russia! My present guess is there will be no World War III now.

### Let's Look at History

All readers should secure from their local library Wells' Outline of History or some popular History of England and read same. Starting several hundred years ago, when our ancestors were all serfs and had no property or other rights, up to the present time, there has been a continuous series of revolutions. These have come about once every 250 years and have been accompanied by bloodshed, sabotage and most inhuman actions by the masses against large property owners. The same frightful practices, now used by the Russians and their allies, were common during the days of the English Cromwell, the French Revolution and the Thirty Years European War. This does not justify present Russian practices, but it indicates that through such crimes, dishonesty and atrocities have the masses secured for us the freedom which we today enjoy.

The fate of wealthy people in Poland, Bulgaria, Hungary and other Russian satellites is only a repetition of what has happened many times before. Those who owned only their own homes and land which they themselves cultivated were not disturbed, but the rich who collected rents for houses or land or interest on money suffered great losses. Those who had most of their assets well diversified among many things including small amounts of coins, jewelry, good furniture, useful tools, etc., got by. Those who had some trade or profession were protected. This included stone masons, carpenters, mechanics, shoemakers and even musicians, artists and poets. All these revolutions were, however, followed by periods of destructive inflation which today would seem to make a well-diversified list of good common stock and especially convertible bonds the best hedge. Of course, a home in the country, in good repair having all modern conveniences and enough fertile land for self support, with well-educated grandchildren, is our best protection.

### Embryo Financiers

Montreal (AP)—Three storekeepers marched into Red Cross headquarters recently with a donation of \$10.27. The business men made their money in a four-day sale of homemade popples, fudge, and soft drinks. Average age of the trio was 10 years.

### Summer Is Bowing Out

Chicago, Sept. 22 (AP)—Today was the last full day of the summer season and it was bowing out with a mixture of weather for the country. Autumn starts at 9:44 a. m. (E.S.T.) tomorrow. It was still summer weather over most of the southeastern states, the southwest and along most of the Pacific coast. It was more like autumn in a belt from the New England states westward across the Great Lakes and the plains states. Showers and thunderstorms continued from the upper Ohio valley and the lower lakes region eastward to the Middle Atlantic states. Temperatures were in the 90's in parts of Texas and California yesterday.

### Eight Companies Agree

Washington, Sept. 22 (AP)—Eight companies have agreed not to advertise that their anti-histamine preparations will cure or prevent common colds. However, the stipulations do not prevent the firms from saying that the medicines will relieve and often stop cold symptoms, the Federal Trade Commission said yesterday in announcing the agreement. Five other firms had made similar agreements with the commission last June.

### Heads State Realtors

C. Fred Ritter, of Middletown, has been elected president of the New York State Association of Real Estate Boards, Inc., succeeding Benedict F. McGrath, of Westchester. A member of the Orange County Realty Board, Ritter served the association as vice-president during the past year. He will assume his duties December 1. Other officers named by the association are: Herbert E. Bode, Long Island and William A. Wells, Buffalo, vice-presidents; Frank Mazzetti, Bronx; treasurer; Richard C. Blase, Schenectady, secretary; Vice-President John C. Fisher, Jr., Albany, executive.

### Door Is Left Open

Utica, N. Y., Sept. 22 (AP)—The Civil Aeronautics Board left the door open today for more information on the disastrous crash of an airplane near here on Labor Day. A C.A.B. power plant specialist—Kenneth Sonner of Washington—testified yesterday that the left engine of the Robinson Airlines DC-3 showed evidence that parts had broken down while the engine was running. Sonner's report covered a laboratory inspection made after the crash, which was fatal to 16 persons.

## 'These Days'

By GEORGE E. SOKOLSKY

### SEOUL SAVES OUR FACE

The recapture of Seoul will have a special meaning in Asia, quite different from the reactions in Europe and America. For the Asiatic understands force. In China, for instance, there has never been a government chosen by the people. Governments exist because those who control them have seized power. Dynastic wars settled the question prior to the establishment of a republic, and since then, civil war has determined who sits in control.

Similarly, the Indian and Malay countries have no traditions of popular government. During the past two centuries, they have been colonial countries, governed by Europeans, often in cooperation with indigenous feudal rulers. Nehru, the present ruler of India, pretends to head a democratic country, but such pretense is for western consumption. The masses of his land know only that the British are out.

The recapture of Seoul by the American, General Douglas MacArthur, to an Asiatic, can only mean that two powers, the United States and Soviet Russia, were contending for control of this little country, that they were able to split the Koreans into two factions, one controlled by the United States, the other by Soviet Russia.

Pursuing this pattern, the Asiatics would say that the Americans were caught napping, that their policies were naive and their diplomacy childish and they lost face. Then came the mystical genius, Douglas MacArthur, who fought, back and defeated Russia.

When a government has lost its capital, it has been reduced to banditry and rebellion. Dr. Sun Yat-sen, for instance, always said that the Chinese revolution could never succeed until Peking, (now called Peiping) ceased to be the capital. When the Nationalist armies reached the Yangtze in 1927, they established their capital at Nanking. When the Communists took power, they established their capital at Peiping, and Chiang Kai-shek, taking refuge in Formosa, is, in the eyes of Asiatics, a rebel.

Again, in the eyes of Asiatics, Mao Tse-tung has played a wonderfully clever game. By staying out of direct participation in the Korean war, he has saved his strength. By avoiding a direct attack on Formosa, he has avoided involvement with the United States. By proposing to assist the Communists in French Indo-China, he has supported the Huks in the Philippines, he effected a division of responsibility, he taking on the south of Asia, while Soviet Russia takes on the north and the west of Asia.

As Mao could not have anticipated the speed of MacArthur's return, he had time to play an extraordinarily astute game, using the British as his stayaw. The old Chinese diplomatic method was to get the westerners quarreling among themselves for spoils and then the Chinese used the most rapacious among them.

The British still have an enormous investment in China. There is Hongkong, their last stronghold and a great trading center. There are such firms as Jardine's, the British-American Tobacco Company, the British banks and shipping lines, etc. They wish to salvage what they may and possibly continue to trade, even acting as a purveyor of Chinese goods in this country, thus earning dollars. Mao understands the British need and desire and has catered to it, in the hope of effecting a split between the United States and Great Britain.

That split is now deeper than is generally conceded. If Dean Acheson had his way, the British would have had their way. But China has remained a political issue in the United States, principally because it involves moral consideration. Nobody really worries about Chiang Kai-shek, except a few personal friends and some old China hands.

But such men as Senator William Knowland of California are horrified at the cynical disregard of national honor and dignity. They do not like to see their country dishonored by such lack of good faith and trustfulness as is represented by the double-cross of Terehan.

Therefore, it is not politically feasible for the administration to accept the British program for China nor is it wise to involve Great Britain in a political campaign which would again raise the challenge of "perfidious Albion." In fact, the British dealings with both Communist China and Soviet Russia may be too costly for them in American friendship.

Meanwhile, the Russian failure in Korea, which was face for the United States, forces both Soviet China and Soviet Russia to a victory somewhere else in Asia. The next phase is apparently in French Indo-China.

## That Body of Yours

By James W. Barton, M.D.

### EMOTIONS AFFECT LARGE BOWEL

Two businessmen attending a convention in a distant city spoke about the effect of their trip upon their appetite, digestion, and bowel movement. One stated that whether it was the change in drinking water or food, he usually suffered with diarrhea; the other stated that when away from home he was constipated and felt sad and dejected. He blamed his sadness and dejection upon the constipation and, as Dr. Walter Alvarez, Mayo Clinic, has pointed out, constipation causes depression of spirits not because of the wastes absorbed into the blood from the lazy bowel but because of the dragging effect on the nervous system of the stretched, overloaded bowel.

Some weeks ago I referred to the experimental studies carried out by Drs. William J. Grace, Stewart Wolf, and Harold G. Brown, in which they were enabled to examine the patient with fistulas with large exposed linings of areas of the colon (large bowel) lying outside the body. This experiment was described in Gastroenterology.

Because of the disturbed emotions of the human race in these days I am repeating the statements of these investigators to the effect of life situations, emotions and colonic (large bowel) activity or lack of activity.

Measurements were made of the movements of the large bowel (colon) blood flow, secretion of juice manufactured by the colon, concentration of lysozyme (juices of body containing substances that kill harmful organisms) and condition of the mucous membrane (lining or inner coat of the colon), under a variety of life situations and emotional states.

During anger, resentment, and anxiety there was overactivity of movement, blood flow and lysozyme secretion in the bowel.

Circumstances of dejection, sadness, hopelessness, and abject fear caused underactivity of bowel, lessening of blood flow and lysozyme secretion of the colon—constipation.

Overactivity of the colon (bowel) associated with sustained feelings of anger, resentment, and hostility, in addition to increased action, was found to damage the lining of the bowel by lessening its strength together with bleeding and ulceration. This, as pointed out before, is the serious (ulcerated) type of colitis.

## The Washington Merry-Go-Round

By DREW PEARSON

Washington—The 81st Congress, despite much constructive legislation, will probably be known as the Congress which increased the workingman's taxes by as much as 20 per cent while refusing to tax the war profits of big corporations.

The most important debate on this was not in public but in the closed-door session of the Senate and House conferees where House members battled savagely to gain a few concessions for little taxpayers. One of the battlers was Democratic Congressman John Dingell of Detroit who at one point demanded:

"While we are making all these concessions to upper-bracket taxpayers and war profiteers, we should at least repeal some of the excise taxes on working people."

"Instead of plugging loopholes that benefit the oil industry and stock-market speculators, you are making the loopholes bigger—and more of them," Dingell angrily chided the senators. "As long as you are in the mood to throw away money, why not make some concessions to the working girl and the man with four or five kids?"

However, the Michigan Democrat's demands that the excise on baby powder and oil, etc., be lifted fell on deaf ears. Finally, Dingell turned to G.O.P. Sen. Eugene Millikin of Colorado, a staunch defender of tax benefits to big bracketeers, and half jokingly asserted:

"Gene, if you don't support me on this—woe to you when you go back to Colorado to campaign this year."

Millikin chuckled, but said nothing.

Gen. Bradley Rebuffed  
Dingell then hurled into the teeth of the senators a letter Gen. Omar Bradley had written Congress, urging that the excise tax on G.I. watches be rescinded.

"I want to see how much faith you have in General Bradley—how much weight his letter carries," the Michiganander challenged. "How about it?"

This time Millikin didn't laugh. Neither did granite-faced Sen. Walter George of Georgia and the other architects of the bill that exempts war profiteers. The senators sat mum and defiant.

There was another bitter blow.

up over the proposed withholding tax on stock dividends. This was aimed to capture an estimated \$80 to \$100 million dollars which Uncle Sam loses each year because stockholders fail to report dividends in income-tax returns.

Again the senators held back, though House conferees Bob Doughton of North Carolina, Joe Cooper of Tennessee, Wilbur Mills of Arkansas and Dingell strongly supported the withholding tax on dividends.

George, who consistently battled for the low-bracket taxpayers in every other phase of the bill, made the amazing argument that the dividend clause would discriminate against "poor widows."

"The government doesn't withhold taxes on wages under \$500 a year," he pointed out. "Why tax the dividends of widows and people of moderate circumstances, which in many cases amount to less than \$500 a year?"

"That argument doesn't hold water," hit back Dingell. "The object of this amendment is not to hurt women of small incomes, but to compel the reporting in income returns of about a billion dollars a year in dividends that escape taxation. Failure to report these dividends is a violation of the law."

"Furthermore, despite what you say, working people with wages under \$500 a year sometimes are taxed. A Detroit auto worker may work only one week in a year, but a portion of that week's wages is nonetheless withheld by the government."

G.O.P. Rep. Dan Reed of Dunkirk, N. Y., sided with the senators, however, and the bracket taxpayers had a majority.

After hours of bitter debate, a majority of the Senate conferees finally were won over to dividend withholding by Rep. Jere Cooper of Tennessee, who warned that the tax bill might be voted down on the House floor.

"If you want a tax bill before we adjourn, you had better reconsider your position," the Tennesseeer bluntly reminded the five Senate conferees.

Faced with this ultimatum, Senator George broke down and voted with Senators Tom Connally of Texas and Harry Byrd of Virginia to include the dividend check-off. However, G.O.P. Senators Eugene Millikin of Colorado and Hugh Butler of Nebraska dissented to the bitter end.

V.F.W. Combats Communism  
Congressional witch-hunters who smear innocent people could take a lesson from an "American Way" campaign which the Veterans of Foreign Wars has launched against communism. The V.F.W. campaign stresses community service to combat conditions on which foreign "ism" thrive—poverty, unemployment, illiteracy.

As the V.F.W.'s new commander, Charles C. Ralls of Seattle, explained to President Truman the other day: "The best way to lick communism is to get at the roots that propagate it. And those roots are chiefly poverty and ignorance. If we see to it that there are no hungry children or impoverished families in this country, we don't have to worry too much about communism."

"That's the proper approach," agreed Truman. "Communism is a state of mind that is aggravated by bad economic conditions. If we change the conditions, we change the thinking of underprivileged people who might be duped into communism. A great deal more can be accomplished toward making good citizens of impoverished people by raising their living standards than by pointing fingers at them."

Note—The V.F.W. is offering \$25,000 in prizes to its posts throughout the country for the best programs of "positive action against communism" through community services.

Hidden A-Bomb??  
Beautiful, blonde Evie Robert, wife of the ex-treasurer of the Democratic National Committee, has her own notions about the probability of an atomic bombing of the nation's capital.

"The attack," says Evie, "will come at about 2:30 p. m., when most of the bureaucrats and government executives are at their desks, stuffed with a big lunch and feeling drowsy."

"The Russians won't take the trouble to bring an atom bomb over here by plane. They'll bring it in the parts in suitcases, and put it together right in their embassy on 16th street. In fact, they've probably got one there right now. Then, they'll all leave town, except for a clerk who'll have the job of setting off the bomb."

Mrs. Robert is conferring with J. Edgar Hoover about putting her daughter in a school in the center of Washington or in one outside Washington.

Third Generation Birth  
Shawinigan Falls, Que. (AP)—Dr. Rosaire Frigon, a 73-year-old doctor, found that among the more than 8,000 Shawinigan Falls births he attended one was the third generation. He delivered Mrs. Jacques Martin of a child and remembered he also brought the mother into the world. Mrs. Martin is the daughter of Mrs. Alfred Doucet, whom the doctor recollected was another of his "babies."

### Truman Has Broken Strongest Argument Against General Eisenhower

By DAVID LAWRENCE

Washington, Sept. 22—Maybe up in Columbia University there's a famous general who is doing a bit of chucking these days—and maybe, if he hasn't any political ambitions, he just hasn't paid any attention to the goings-on in Washington of late.

But the observers who, in surveying the political scene, must cast a look ahead at 1952's presidential campaign, have paid a good deal of attention to a certain statement by President Truman which may have a world of meaning when the big contest opens about 18 months hence.

For, in recommending General Marshall to be secretary of defense, Mr. Truman has unwittingly demolished perhaps the strongest argument that would have been used against General Eisenhower. It is the argument that the President or the commander-in-chief should not be a military man but should always be a civilian.

"There have been military heroes who have become president of the United States but in the last half century or more the career military man—the officer who had spent his whole life in the military service—did not become chief executive. The last who tried for it was the late General Leonard Wood, who was an unsuccessful candidate for the Republican presidential nomination in 1920. There was talk for a while after World War I of nominating the late General Pershing, but it never got beyond the talk stage."

General Eisenhower's name has been more discussed in political circles than that of any other military man in recent years. He might have been nominated by either party in 1948 if he had given the word. He has not indicated that he would or would not accept a nomination in 1952, and it has been taken for granted that, if he did, he would be a nominee on the Republican ticket.

The objection to General Eisenhower which has been heard most often is that a military man should not hold the high office of president. This sort of comment usually emanates from labor-union leaders and "liberals." But in 1948 when the effort to ditch President Truman at the Democratic National Convention was in full swing, James Roosevelt and the leaders of the big labor unions and the liberals were striving for a Roosevelt-Douglas ticket. They didn't seem to be worried about a military man until after the Truman nomination and the Republicans were thinking about nominating the general, when some rumblings were heard about losing the civilian viewpoint in the White House.

It may develop, too, that the fallow of 1948 and 1949 and the other candidates on the Republican side may go back to the congressional record and read what some of the Republican senators said about selecting a military man to head the defense establishment. They might feel that the argument they made would apply to a Commander-in-Chief, too.

The year 1952, however, may be a momentous one in world history. If the impressions conveyed by leaders in Congress and in the executive branch of the government that a showdown with Russia may come in 1952 prove correct, it may be that one party or the other will be urging the nomination of General Eisenhower. Maybe on that occasion one of the other of the parties will look up Mr. Truman's message to Congress of last week and paraphrase it slightly so it might read as follows:

"We are firm believers in the government principle that our government should be headed by a civilian. However, in view of the present critical circumstances and of General Eisenhower's unusual qualifications, we believe that the national interest will be served by that, if he did, he would be a nominee on the Republican ticket."

know something about Russia's progress, but their remarks reflect only speculation. What are the possibilities and the probabilities? What was there to the remarks of General Anderson, who was fired from his job at Maxwell Field, about beating the Russians to the punch? The Russians certainly know. Why can't the Americans?

I know John O'Donnell has been posted around by members of the staff for inquiry toward the great spirit of I-40, but the situation in Washington that he refers to was so grotesque that his recollections are justified. People have a happy faculty of forgetting enemies, but if we are heading into any such nonsense again as prevailed in the Office of Civilian Defense, this is the time to make sure of it. Things were as bad then that even Ray Clapper, New Dealer to the marrow, had to let go with one of the few blasts of his optimistic career.

"Half the trouble around here would be got rid of," he wrote, "if President Roosevelt would haul Mrs. Roosevelt out of the place. Most of the remaining trouble would be got rid of if the estate and franchise activities of Mayor La Guardia were removed from the scene."

The Office of Civilian Defense has done a vast amount of work and done it well. But its effectiveness has been undermined by the misused talents of Mayor La Guardia and Mrs. Roosevelt, who have a station in Congress about saying, "My body wants to criticize the office of the President. The Office of Civilian Defense has become a kind of personal parking lot for the pets and proteges of Mrs. Roosevelt and some of them at salaries larger than a brigadier general or a rear admiral gets."

With November, Mrs. Roosevelt's day of protection, May 1949, was appointed as a year, which is more than a major in the army gets. Her job is to encourage rhythmic dancing for children. When I asked how she got there I was told through (Continued on Page 7, Col. 7.)

## So They Say... Questions—Answers

Q How clever an imitator is the starting?  
A The imitative ability of individual starlings varies, but the starting ranks close to the mockbird as a mimic.

Q When were land grants first made to railroads?  
A The first Federal railroad land grant conveying millions of acres of land to the State of Illinois was approved Sept. 20, 1850. A number of grants of land to states followed as aids to railroads.

Q What became of Jefferson Davis after his release from prison?  
A After he was released on bail the proceedings against him were dropped and he retired to his Mississippi estate where he wrote "The Rise and Fall of the Confederate Government."

Q How many of the Great Lakes lie entirely within the United States?  
A Only one—Lake Michigan.

Q How old is the making of leather?  
A Primitive methods of curing skins were known to the ancient Egyptians. In China articles of leather have been found which prove to be over 3,000 years old.

**Labor Party Begins Election Campaigning**

London, Sept. 22 (AP)—The left wing of the Labor Party began campaigning out loud today for a new national election within the next few weeks.

The Socialist Weekly Tribune called on rank and file laborites to rebel against Prime Minister Attlee and support this course at the annual party conference starting Oct. 2 at Margate.

The Tribune reflects the views of Health Minister Aneurin Bevan and his strong following in the party. His wife, Jennie Lee, is a member of its editorial board.

The demand for a quick election brought into the open a split in Attlee's cabinet. Attlee is known to favor postponing the appeal to the voters, perhaps until next February.

The labor government now has a paper majority of only seven votes in the House of Commons. The Tribune, in its issue which hit the news stands today, insisted:

"There is only one decisive way in which the deadlock can be broken. That is by a new appeal to the polls."

The weekly declared that in a new election it might be perfectly possible to secure a majority of some 80 or 70. It added: "That prize, if it could be gained, could alter the whole situation at home and abroad."

It would enormously strengthen the labor government's authority in foreign affairs.

**Sound Can Shatter Steel Bars, Is Report**

Buffalo, N. Y., Sept. 22 (AP)—Steel bars now can be shattered by the force of sound, a spokesman for a Cleveland, O., firm says.

High-frequency waves have been harnessed for industrial use and literally shake a material apart, John W. Butterworth, director of hyperphonics for the Brush Development Co., said yesterday.

Addressing the Fifth National Instrument Conference, Butterworth said the powerful sound waves can crush liquids almost instantly by smashing particles together into a "homogenized" solution that cannot separate.

The process will erode diamonds and can be used to impregnate materials like wood and fabric with chemicals so as, for instance, to render them fire resistant, he said.

In medicine, the sound waves can shatter bacteria cells to yield vaccine material free of the protein which sometimes causes dangerous allergies, Butterworth said.

He said his company focuses sound waves much as a magnifying glass focuses the sun's rays to burn a hole in a piece of paper. A sound-like, ceramic is vibrated with high-frequency electric power, Butterworth added, and the resulting waves are pitched far too high to be heard by the human ear.

## Oatis Must Leave AP Prague Bureau

Prague, Sept. 22 (AP)—William N. Oatis, chief of the Prague Bureau of the Associated Press, was told today that he must leave Czechoslovakia by a week from tomorrow.

His three-month foreign correspondent's accreditation to the foreign ministry runs out that day. Bedrich Runge, deputy director of the ministry's press department, told him it would not be renewed and he must get out when it expired.

"You are no longer persona grata (personally acceptable)," Runge said. "Your behavior has been such as to justify our refusing to grant the prolongation of your accreditation."

Oatis is the third A.P. correspondent to be expelled from this Communist-ruled country this year. Richard R. Kasschke, left Jan. 11. Nathan Polowetzky departed April 8. They were accused of lacking objectivity in reporting Czech affairs but the government did not back up the charges with specific allegations.

Took 14 Weeks

Oatis's visa, applied for late in February, was 14 weeks in coming through. He arrived here June 23. Five Czechoslovak citizens had kept the bureau going in the meantime. Their reporting was limited to rewriting dispatches of the official Czechoslovak News Agency.

"This is not a measure that is directed against the Associated Press," Runge told the con-

spondent. "It is a measure that is directed against you personally."

Runge was asked whether Oatis privileges were being withdrawn because of something he did or because of something he wrote.

"You know exactly why," he said.

**Reply Given**

When Oatis replied that he did not know why, Runge replied: "I am just informing you of the decision of our authorities and that decision is that you are no longer acceptable."

Oatis said this answer did not satisfy him. He asked for a specific instance of misbehavior.

"I have nothing more to say," said Runge. "I have nothing to add—not a word."

The correspondent had gone to Runge's office to seek his help in getting recently permit to use on a business trip to Frankfurt, Germany. Runge said he could not have one. Then he explained why.

He said the Associated Press should name another Prague correspondent. He would not say how quickly the government would grant a new man a visa.

**Egypt Gets Fast Trains**

Cairo (AP)—Modern, high-speed trains soon will run on the Egyptian railway network. The Egyptian government has ordered 10 trains from England. With a speed of 100 miles per hour, they will reduce the present three-hour trip between Cairo and Alexandria, the summer capital, to a little more than one hour. Five trains already are enroute to Egypt.

There is a range of more than 12 miles in the deepest place in the ocean to the highest mountain peak.

## Local Lodge Plans Program to Honor U.N. Celebration

The Kingston Lodge of B'nai B'rith, through its Americanism and civic affairs committee, of which Meyer Kaplan of Kingston is chairman, has extended an invitation to all veterans organizations, service club and to other public and fraternal groups of the city to participate in a joint Americanism program United Nations Day, Tuesday, October 24. Representatives of these groups are expected to attend an organization meeting to be held at the B'nai B'rith House Tuesday, October 3, at 8 p. m.

Kaplan, making known this activity on the part of this committee said, "programs of the kind contemplated by our lodge are especially necessary during the present critical era when the forces of destruction are engaged in a gigantic struggle for the control of individual freedom and human dignity. It is my sincere hope that all organizations in our city will participate in arranging for this function and that our good citizens will attend. Tuesday, October 24, is an appropriate time. It will be recognized everywhere as United Nations Day. The place of the event will be later announced. All organizations are invited to send representatives to the initial meeting scheduled to be held at the lodge Tuesday, October 3. At that time a general chairman will be chosen and details of the program will be discussed."

## Bar Association Prepares to Close Its 73rd Meeting

Washington, Sept. 22 (AP)—The American Bar Association prepared to close out its 73rd annual meeting today after acting on three strong anti-Communist resolutions recommended by its general assembly.

They would:

1. Put A.B.A. on record as favoring state laws to require that every lawyer sign an affidavit that he is not a member of the Communist party and that he renew the oath annually.
2. Create a special A.B.A. committee to analyze Communist methods and tactics, and advise judges and lawyers how to combat them.
3. Put the association on record as favoring the broad anti-subversives bill which Congress sent to the White House Wednesday night. President Truman is expected to veto it, perhaps today, and congressional leaders anticipated that a veto would be overridden.

The Justice Department, meanwhile, challenged the A.B.A.'s retiring president, Harold J. Gallagher, on figures covering political party affiliation of men named to federal judgeships in recent years.

In a formal statement, the department said Gallagher was "in error" when he reported earlier this week that "since 1932, only eight out of nearly 200 appoint-

ments of federal judgeships have not been Democrats."

Actually, the department asserted, 37 Republicans have been given lifetime appointments to the federal bench since March 4, 1933, when President Franklin D. Roosevelt was sworn in for his first term.

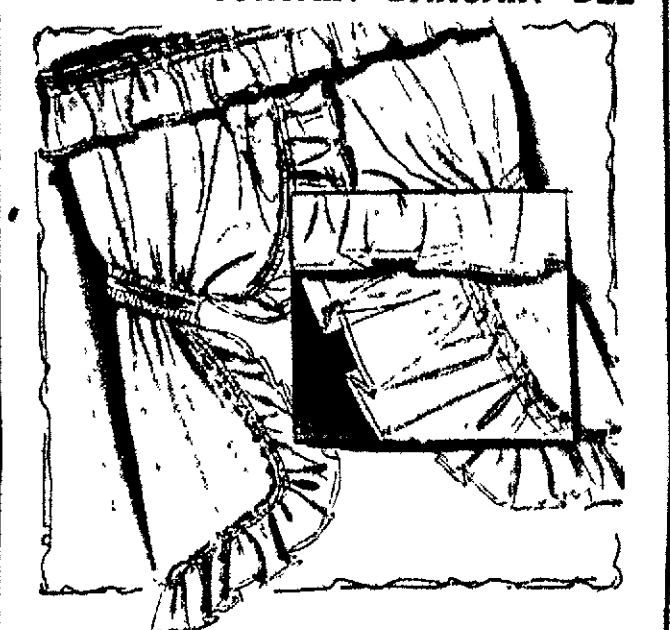

Gallagher, a member of the late Wendell L. Willkie's New York law firm, charged the Democratic administration with "a reversion to a spoils system" through appointments of party workhorses to judicial posts. Gallagher said this has kept some of the nation's best legal minds off the bench.

Cody Fowler of Tampa, Fla., was to take office as the new president at the close of the session.

Many of the sidewalks of Rio de Janeiro are covered with black and white mosaic tile.

### Expert on Child Adoption Will Present Free Lecture, Film, 'Nobody's Children'

The human side of child adoption will be discussed by Miss Sophie van S. Theis, one of the most distinguished national leaders in the field of child welfare, in a talk at Kingston High School next Wednesday at 8 p. m.

A March of Time film, "Nobody's Children," will be shown. Both talk and film are open to anyone wishing to attend, without charge.

Miss Theis is executive secretary of the Child Placing and Adoption Committee of the State Charities Aid Association, which is sponsoring her appearance in Kingston.

She became interested in social work while attending Vassar College. After graduation in 1907, she served for a short time with the Pratt Institute, and in 1908 joined the staff of the S.C.A.A. Adoption Committee. She became executive secretary in 1916.

In addition to directing the child placing and adoption activities of the S.C.A.A., Miss Theis has served as an advisor on adoption to various private and public agencies here and abroad.

After the first world war she worked with the Serbian Child Welfare Committee in what is now Yugoslavia.

Miss Theis' experience also has included teaching a course on child welfare at the Columbia University Extension Division and participation in many child welfare institutes throughout the country. She also has collaborated with the authors of many books and articles on child placing and adoption.

In 1944, Miss Theis was awarded the honorary degree of Doctor of Humane Letters by Russell Sage College, which cited her as one of the most distinguished national leaders in the field of modern child welfare.

The Child Placing and Adoption Committee, since its founding more than 50 years ago, has found adoptive homes for more than 7,000 homeless children. The committee, whose adoption policies and procedures often have served as models for other agencies, is continuing to seek adoptive homes for the many children of all races and creeds, under its care.

### Miss Dorothy Marie Klepeis of Rosendale Becomes Bride of Robert Edward Miller

Miss Dorothy Marie Klepeis, daughter of Mr. and Mrs. Edward Klepeis, Sr., of Rosendale, became the bride Sunday of Robert Edward Miller, son of Mr. and Mrs. George Miller of Niverville, in a double ring, afternoon ceremony at St. Peter's Church, Rosendale, with the Rev. Daniel Fogarty officiating.

The church was decorated with white satin bows. James Sweeney was the organist, and Minton Mooney, soloist, sang "Ave Maria" and "Pans Angelicus."

Given in marriage by her father, the bride wore an old-fashioned gown of white satin with off the shoulder neckline trimmed with lace and beading. Her lace-trimmed fingertip veil was caught to an all-beaded crown, and she carried an old fashioned bouquet of white gardenias.

Rose Klepeis of Haledon, N. J., cousin of the bride, was maid of honor, wearing a gown of Mexican satin with a picture hat, carrying an old fashioned bouquet of matching roses.

Harry Pulver of Kinderhook was best man and the ushers were W. J. Meany of Delmar, uncle of the groom, and Lock Miller, of East Greenbush.

A reception was held at Spindler's Resort at Maple Hill with dinner for about 100 guests. Decorations were in white, with a four tier wedding cake. Music was by Ted Riccobono's orchestra.

The couple left for a tour of the New England states and Canada, planning to visit Niagara Falls on their return trip. For traveling, the bride wore a beige dress suit with brown accessories and a red rose corsage.

Miss Miller was graduated from New Paltz High School and the Moran-Spencerian School of Business. She is employed in the plant department of the New York Telephone Company.

The groom is a graduate of Christian Brothers Academy in Albany, and served in the National Guards. He is employed by the Western Electric Company.

JACOBY  
ON BRIDGELeave It to George  
To Find a Way

By OSWALD JACOBY  
Written for N.E.A. Service

One of the most remarkable hands played in a recent national tournament required nothing of some players but the ability to follow suit. In one case however, declarer got a real workout.

The hand was bid to six spades at many tables, often on the bidding shown with the hand. This seems like a "stab," but the bid makes very good sense. After all, North has made a first hand vulnerable opening bid with not the slightest strength in spades, and presumably very little (if any) strength in hearts. South is justified in believing that he will find a dummy that is strong in the minor suits—exactly what he needs for a slam.

At some tables, the opening lead was the four of hearts. In these cases, declarer dressed dummy's jack of hearts, driving out East's ace. They then ruffed the ace of hearts and later got a much-needed discard on the king of hearts. The hand therefore presented no problem.

In some cases, West decided that South was prepared for a heart lead and might not be prepared for a club lead. This was an unfortunate choice, since the club lead allowed South to win two of the three club tricks, making his slam with ease.

At one table, the West player chose the ten of trumps as his opening lead. This gave no advantage at all to the declarer—none other than Generous George. George took three rounds of trumps and then tested out the diamonds with the ace and king. He then led to abandon the diamonds since the suit was hopelessly blocked. If he had continued that suit, he would have to win the fourth round in his own hand, with no way to get back to dummy for the fifth diamond. He would then wind up losing two club tricks.

George realized it would do him no good to start the clubs, since proper defensive play would assure two club tricks to the defenders unless East had both the king and queen. There was a sure way of making the contract and Generous George adopted it with great relish.

He led a heart from the dummy and let the opponents win the trick! While the defenders were busy winning the heart trick, George carefully discarded the six of diamonds. This unblocked dummy's long suit.

It was now possible for George to lead the ten of diamonds to dummy's queen and cash the two remaining diamonds to discard his two losing clubs.

## Three Children Perish

Augusta, Me., Sept. 22 (AP)—Three small children perished in a flash fire that swept their home while their parents were working in a mill last night. They were Donna, five, Nancy, four, and Donald, three, children of Mr. and Mrs. Donald Gilley. Their baby-sitter, 14-year-old Greta Merrill, escaped in her nightgown. She tried but failed to carry one of the children with her. Greta's hysterical screams gave neighbor Leo Nadeau the mistaken impression that the girl's boy friend also per-

ished. The boy, Robert Gilley, was found sleeping in his own home. He is an uncle of the dead children. Their mother collapsed on returning to the glowing ruins of her rural home, four miles from the city.

# Newhouser-Feller Duel Launches Crucial Cleveland-Detroit Series

BY RALPH RODEN  
Associated Press Sports Writer

The Detroit Tigers go after undisputed possession of first place in the see-saw American League pennant struggle tonight while the New York Yankees and Boston Red Sox are idle.

Detroit takes on the tough Indians in Cleveland in the first of a three game series while the Yanks and Red Sox mark time before opening a two game series at Yankee Stadium tomorrow.

The Tigers tied the Yanks for the lead yesterday by trouncing the Philadelphia Athletics, 8-2. The Red Sox and the Yanks were not scheduled.

Here's the picture at a glance:

	W	L	Pct.	G.B.
New York	91	53	.632	1.0
Detroit	91	53	.632	1.0
Boston	89	55	.618	2.0

Newhouser vs. Feller

Hal Newhouser, 29-year-old left-hander, has been selected to pitch for the Tigers against the Indians' Bob Feller. Both boast identical 14-11 records.

The Indians have proved one of the Tigers' toughest adversaries this year. They have crushed 17 times with each side winning eight games. The other resulted in a 13-13 tie. The victories were evenly distributed, four for each in Cleveland and Detroit.

Newhouser has beaten the Indians four times and lost to them twice. Both of his defeats came at Cleveland. Feller holds a 2-1 lead against the Tigers.

Meanwhile, Yank manager Casey Stengel has a pitching problem to solve. His team will work out at the Stadium today and two of his ace, right-hander Vic Raschi and left-hander Ed Lopat, will try out their ailing arms.

Injury-plagued pitching staff hindered the Athletics in their game with the Tigers yesterday.

The Tigers jumped on Joe Coleman, who has had arm trouble, for six runs in the first six innings and were never headed. Coleman, who walked nine, batted six times. The A's have only nine pitchers, including three rookies.

Spahn Wins 21st

The game was the only one scheduled in the American League.

In the National, the Boston Braves defeated the St. Louis Cardinals, 5-0, and the Brooklyn Dodgers (hummed the Pittsburgh Pirates, 10-8, to remain tied for second place. They trail the league-leading Phillies by seven games. The Phils and Chicago Cubs were idle.

Warren Spahn blanked the Cards on two hits to rack up his 21st victory. The Braves scored things up in the first inning when Sam Jethroe crashed his 17th home run with a man on base.

The Dodgers overcame a 4-1 deficit with four runs in the fourth inning and followed up with five more in the fifth to clinch the decision over the Pirates.

In the only other game, the Cincinnati Reds defeated the New York Giants, 8-5. The Reds piled up a 7-1 lead in four innings for Howie Fox. Fox blew up in the eighth and granted four runs before Frank Smith came on to save the game.

The victory ended an 11-game winning streak for Giant right-hander Sal Maglie. The loss was Maglie's fourth against 16 victories. Three of the setbacks were administered by the Reds.

Portland, Me., Bobby Polowitz, 139, Hartford, and Hermie Freeman, 134 1/3, Bath, Me., drew, 10.

"I've found out

about character in ale and beer with my first taste of Carling's. What a difference! There's a freshness of flavor—a downright satisfaction—that puts Carling's in a class by itself."

STUHLER CAPTURES  
MET OPEN WITH 280

Garden City, N. Y., Sept. 22 (AP)—George Stuhler, playing professional at the Cedar Ridge Club, Livingston, N. J., is the new Metropolitan Open golf champion.

The 26-year-old Long Island-born pro wound up the four-round grind over the 6,524-yard, par 71 Garden City Country Club course yesterday with a 280 total, four under par.

Stuhler, never far off the leaders in the tournament despite shaky first round putting, overcame his initial 73 by scoring three straight 69s.

One stroke behind the long-hitting Stuhler came the 1947 Master's hero, Claude Harmon of Mamaroneck, N. Y., with a 281.

Why worry about next year's golf. You'll be as outshy as this year.

Like Stuhler, he had a pair of 69s yesterday but his par on the final hole left him one short of the winner.

Fred Gronauer, Sands Point, N. Y., pro who led for the first two rounds, finished in a tie for third with Avi Wall, the Bronxville, N. Y., hole-in-one specialist, at 282.

AREA HORSEMEN WHO WILL COMPETE IN LOWLANDS SHOW

Four outstanding members of the Lowlands Riding Club of Kingston who will compete in the club's first annual horsemanship and field day Sunday at Bright Acres on the Ontario Trail, are shown with crack stock horses. In usual order: Sgt. John Rocco, retired member of the New York city mounted police, on "Cody"; Jim McCabe on "Blaze"; Aubrey Rocco on "Duchess" and Ford Gilderleeve on "Amber Girl". Izzy Epstein club president, announced today that entries are pouring in from all cities in the mid-Hudson region. Joe McNierney, who is known to local horsemen as "Navajo Joe", will be the commentator. He has wide experience in this field having handled the Lou Blackmon "Diamond Rodeo" in Ardmore, Oklahoma; McCarthy's Wild West Show in Medora, North Dakota, the Lazy K Ranch show of Little Britain, N. Y. and the Orange County Saddle and Bridle feature.

Elbows Out in Offensive Blocking, But There's No Stopping Hoople

By MAJOR AMOS B. HOOPLE  
Father of Elbow-Saving  
Egad! Zillions of gentle readers, here is your favorite correspondent back again, in the pink, for another season of successful football forecasting-har-rumph!

What more appropriate way of teasing off, as we say in cricket, than a discussion of the rules changes for the year?

The fair catch has been abolished. This will add zest to the contest.

The number of time-outs has been increased from four to five, each half, for each team, without penalty. Good!

Use of elbows is curbed in offensive blocking. If you've ever been caught inadvertently at a bargain sale, you know what we mean—hah! The blocker's hand must be in contact with his

body. In no block may the hands be locked. If you'll pardon a bit of a pun, locking the hands seems to be the key to the situation.

Well, well! Now to get on with our prognostications, don't expect any startling upsets this week, fans.

I would not astound this writer to find that results turn out exactly as herewith chronicled.

You'll get the upsets later, and who but Hoople will lead the field in telling you all about them in advance?

Pronto Don Upsets Mighty Proximity To Win \$50,000 Roosevelt Feature

Westbury, N. Y., Sept. 22 (AP)—Just when it seemed that Proximity was likely to go through the 1950 harness racing season without losing a race, the great eight-year-old mare went down to defeat.

It happened last night in the \$50,000 Roosevelt two-mile trot at Roosevelt Raceway. The winner was Pronto Don, a five-year-old gelding owned by the Hayes Fair Acres Stable of Du Quoin, Ill., a \$9 second choice to the odds-on Proximity. He took the \$22,500 first money by a nose.

Demon Hanover, the 1948 victor owned and driven by Harrison Hoyt of Bethel, Conn., was second where he performed most of the trip.

Proximity might have won but for breaking stride in the final eighth of a mile. She finished third and duplicated her race of a year ago, when she also broke and wound up third.

Owned by Ralph and Gordon Verhurst of Victor, N. Y., and driven by Clint Hodgins, Proximity went into last night's event with a 1950 record of winning 18 of 21 heats. Although beaten in three heats, she had not been defeated in a race this season.

Earnings Now \$244,284

Greatest money winner in harness racing history. Proximity picked up \$7,500 for finishing third, boosting her all-time total earnings to \$244,284.

Pronto Don, scoring his 10th consecutive triumph, has now earned \$73,047. He had been chalking up victories on the Grand

Wiltwyck Golfers Meet IBM Squad

Wiltwyck Golf Club will meet a IBM Country Club squad in a return inter-club match Sunday at the Wiltwyck links. There will be ten men's matches and six for women, for a total of 32 players on each side. IBM defeated Wiltwyck on the Dutchess links in July.

Circuit and midwestern mile tracks.

The veteran Rep Pala of Indianapolis sent Pronto Don to the front in the first half mile then kept him there for the remainder of the long trip. Four circuits of the half-mile oval, Pronto Don's time was nothing sensational—4:20.2.5 over a strip only slightly dulled by drizzling rain. When Proximity won the race in 1948, she set a world record of 4:17.

The weather cut the attendance to 16,207.

## Big Three Talk

ferences at today's meeting will be placed before a session of the 12-nation North Atlantic Council here next week for further action.

Participating in the meeting were Secretary of Defense General George C. Marshall, British Defense Minister Emanuel Shinwell, French Defense Minister Jules Moch, U. S. Secretary of State Dean Acheson, British Foreign Secretary Ernest Bevin and French Foreign Minister Robert Schuman.

Americans Take Initiative

The American officials, who reportedly favor inclusion of German units to fill a gap in western Europe's defenses, took the initiative in the closely guarded session on the 37th floor of the Waldorf Towers.

A State Department spokesman said the conferees would "talk over the United States' analysis of certain defense problems which came up in discussions among the three foreign ministers this past week."

Some observers interpreted this as meaning the United States will attempt to sell the idea of German units to the French and British representatives.

French Are Reluctant

A State Department source said the French particularly were understandably reluctant to rearm Germany after being invaded three times by that country but that the U. S. analysis did not envision a rearming Germany in the usual sense of the term.

He said that in the United States view German units would be directly under the control of the supreme commander of the integrated force and would not be subject to any control by the German government at Bonn.

Sources close to the meeting said no tangible results toward creation of an integrated defense force could be expected quickly because even if such a force were agreed upon, there remained many technical problems. These problems would include raising training and equipping the men and deciding on the proportions to be borne by the various nations in men, equipment and costs.

The six high officials went into session at 10:20 a. m. (E.S.T.). Later they were joined by about half a dozen advisors from each of the three nations.

Loss of Life High

New Delhi, India, Sept. 22 (AP)—Widespread loss of life and high property damage in the Kashmir valley due to floods were reported here today. The Jhelum river has overflowed its 10-foot high banks and buildings in parts of Srinagar, Kashmir's capital, are submerged.

Communications have been disrupted. A 70-mile area in the Kashmir valley was reported completely under water.

## Sales Show Jump

## During Pre-Curb Week in Nation

Washington, Sept. 22 (AP)—The Federal Reserve Board's first shots at the inflation specter appeared today to be bouncing back. But the credit-control agency has a lot more ammunition left, and a will to use it.

When the board on Sept. 8 announced some fairly tight curbs on installment sales terms as an early step, it provided a 30-day advance notice before putting the restrictions into effect last Monday.

Today it was studying first results of the advance notice: A big jump in department store sales—which usually give the first clue on the general retail sales picture—during the warning period.

Department store reports to the board yesterday from over the nation showed that last week's sales jumped 25 per cent over the previous week, which was nearly ended before the credit terms were announced.

Officials conceded that was strong evidence that consumers had hurried to make installment purchases of television sets, furniture and all the household appliances that department stores handle before the credit restrictions took hold.

Some suggested, however, that the increase in purchases supports the board's idea that a "modest" tightening up will be sufficient to put an effective damper on installment sales, particularly since higher income tax withholdings next month will cut down buying power.

These officials reasoned that people would not have rushed out to heat the controls because if they considered it as easy to buy under the control terms as it had been before them.

Against this, reports from many cities say plenty of retail sellers insist the curbs haven't done much to their business yet, and unless tightened, aren't likely to do so.

It will be another month before overall retail sales figures in which department stores sales are only one item, are available to show more clearly how the inflation fight is going on the consumer front.

CHECK RUBBISH FIRE

Firemen were called at 8:23 p. m. yesterday to check a rubbish fire on Downs street between Belvedere street and Tremper avenue. Engine 4, of the Wicks Company responded.

Romulo is Speaker

Romulo, who spoke after Dewey, told the diners without mentioning Dewey's speech.

"I was going to make a speech," I distributed copies to the newspapers and I hope they print it. But I thought in this congenial atmosphere—as it was controversial and dealt with the subject of Korea—I felt it would be better to leave it to the press to publish."

Romulo then tossed aside a copy of his prepared speech, and spoke informally.

In his prepared speech, Romulo said the United Nations organization would "weather on the vine" if it failed in its handling of the Korean crisis. He said the current U. N. General Assembly meeting "must formulate a settlement of the Korean problem that will insure not only the independence but the unification of North and South Korea . . ."

Wage Notice Served

Pittsburgh, Sept. 22 (AP)—The C.I.O. United Steelworkers served formal notice on the steel industry today it wants an almost immediate wage boost for its million members. Formal notification letters to 1400 firms went into the mails shortly after Philip Murray, president of both the C.I.O. and the steelworkers, came from a meeting of the Steelworkers' Executive Board to announce the demands. Murray didn't spell out in dollars and cents just what will satisfy the union.

The higher taxes will be felt in some other way. For example the bill puts a new 10 per cent excise impost upon television sets. The increase in normal corporate tax rates is retroactive to apply to one-half of 1950 corporate income.
